ADMINISTERING OF MEDICINES POLICY

- All medicines are kept in a locked cupboard in the office for day pupils. Boarders medicines are kept in sick bay in the Boarding House and are administered by the Boarding staff out of working hours. All treatments are recorded at the time or as soon as is practicable.
- Asthma reliever inhalers are kept either with the child or in the child's classroom with immediate access. An additional "spare" inhaler may be left at school.
- If your child carries an Epipen, please complete the Allergies Alert sheet available from the office. Pupils that are prescribed Epipens (or equivalent) keep their pens with them in their classroom and a spare is kept in the office.
- We request that any prescribed medicine which must be administered during the day is handed to the office staff along with completion of the consent form. These medicines must be in the original packaging with the pharmacy label present.

- The following homely/household medicines are kept in school and may be administrated with your consent. We would be grateful if you could complete the attached consent form.
 - Paracetamol suspension
 - Cough remedy
 - Piriton suspension
 - Anthisan cream/Waspeze (insect bites, nettle rash)
 - E45/ Calamine cream
 - Vaseline
 - Milk of Magnesia

Please note we do not use Ibruprofen per Dfes guidelines.

CONSENT FOR ADMINISTRATION OF MEDICINES AND FIRST AID AT BOUNDARY OAK SCHOOL:

I/we have read the medicines policy and consent to (Print name)having the following medication if needed.

Paracetamol suspension	YES	NO.....
Piriton	YES	NO.....
Miscellaneous items as listed in the policy	YES	NO.....

I/We also consent to any first aid treatment and administering of medicines above for my/our child in school. I agree to update the school of any changes in my child's medical history and contact details for me/ourselves ASAP.

Signature

NOTE: The medical profession takes the view that Parents Consent for medical treatment cannot be delegated. Thus consent forms have no legal status and a doctor will insist on the consent of a parent for treatment. However, it can be a comfort to have general consent in advance from parents and to have an adult who is able to complete some of the forms required by the Medical Authorities.

Should the occasion arise that your son or daughter may need emergency medical treatment and it proves impossible to contact you immediately, it is required by the D.S.S. that we have your written permission to act in loco parentis should we feel that emergency treatment be necessary. The most usual course of action would be to take your son/daughter to a local Emergency Hospital.

I give my permission for Boundary Oak School to act in loco parentis for emergency treatment for my son/daughter including a transfer to hospital. I understand that I will be contacted ASAP.
